Hey Megan – Was this from Katrina's update? Do we know how many more?

- EPA Remedial Project Manager and the EPA Region 6 Dive Team are on-site and overseeing the assessment at San Jacinto Waste Pits Superfund site. Yesterday, **more than one area of interest was identified**. The Region 6 Dive Team will continue to monitor activities and identify areas of interest until estimated completion on 9/11. The Dive Teams are expected to begin underwater cap inspection as early as the afternoon of 9/11.
